

## ANTH 235 Quiz Review #1

**The first Quiz will be Monday, September 26 in Class**

The review will be Thursday, September 22 at 4PM/5PM in Haury 216

### Format:

- Definition
- Date
- 3-4 Facts

### List of Terms/Concepts:

- Archaeology
- 5 Branches
- Anthropology
- 4 Divisions
- Baseline Data
- Chronometric Dating
- Radiocarbon Dating
- Stratigraphic Dating
- Law of Superposition
- Antiquarianism
- Charles Lyell
- Unilinear Cultural Evolution
- Colonialism
- Nationalism
- Archaeological Record
- Artifacts and Ecofacts
- Cultural Chronology
- Culture
- Culture History
- Data
- Empirical
- Features
- Law
- Model
- Pleistocene
- Research Design
- Scientific Method
- Sites
- Stone Age
- Bronze Age
- Iron Age
- Paleolithic
- Mesolithic
- Neolithic
- Civilization
- Cross-Dating
- Diffusion
- Typology
- Block Excavation
- Curation
- Datum
- Geophysical Survey
- Ground-Penetrating Radar
- In Situ
- Judgement Sample
- Provenience
- Remote Sensing
- Screening
- Standard Excavation Unit
- Statistical Sample
- Surface Collection
- Test-Level Excavation
- Trench

### Additions as of 9/14

#### Chapter 3:

- Analogy
- Cultural Materialism
- Ethnoarchaeology
- Ethnographic Archaeology
- Evolutionary Ecology
- Experimental Archaeology
- Gender
- Human Ecology
- Middle-Range Theory
- Postprocessual Archaeology

- Processual Archaeology

#### **Chapter 4:**

- Anthropogenic
- Bioturbation
- Casual Tool
- Component
- Composite Tool
- Context
- Cremation
- Geofact
- Hydrology
- Inhumation
- Locus
- Manuport
- Midden
- Ossuary
- Palynology
- Preservation
- Primary Context
- Secondary Context
- Simple Tool
- Taphonomy
- Transformation Processual
- Use-Life

#### **•Chapter 5:**

- Block Excavation
- Curation
- Datum
- Geophysical Survey
- Ground-Penetrating Radar
- In Situ
- Judgement Sample
- Provenience
- Remote Sensing
- Screening
- Standard Excavation Unit
- Statistical Sample
- Surface Collection
- Test-Level Excavation
- Trench

#### **•Chapter 6:**

- Assemblage
- Attributes

- Classification
- DNA Analysis
- Flintknapping
- Geochemical Sourcing
- Morphology
- Protein Residue Analysis
- Style
- Temporal Types
- Typology
- Use-Wear Analysis

#### **Be able to distinguish between:**

- Prehistoric and Historic
- Paradigm and Theory
- Synchronic and Diachronic
- Hypothesis, Induction, and Deduction
- 

#### **Be familiar with the readings from the textbook about...**

- Pompeii and Mt. Vesuvius
- The Piltdown Man
- Mound Builders
- Maya
- 
- ...and

- Intelligent Design (Shipman) from D2L
